

Local COVID-19 Testing Sites

This list has been collated and curated by Gan Shalom families and teachers. We try to keep it up to date and we're grateful for all the information our community has sent to us. Please use this as a resource. Choose the site that best fits your needs, and if you find a testing site that is not on this list, please send us the information so we can keep this list updated! Also, please send any feedback about the testing sites, it's useful to include annotations for each option.

Grubbs Pharmacy

326 East Capitol St NE,
Washington, DC 20003
(202) 543-4400

Notes: Just down the street from the school. This location features multiple testing options available (PCR and Rapid Antigen Test) and relatively quick turnaround time.

[Schedule here for a home visit](#)

At Home Options approved for 2+ years

[Pixel COVID-19 Test](#) (PCR Test)

[BinaxNow at CVS](#) - Antigen Self-Test (not PCR)

Notes from their website: A simple solution for COVID-19 infection detection, with rapid results in the convenience of your home. This test has received FDA Emergency Use Authorization for self-testing without the need to ship samples to a lab or for a prescription from your healthcare provider. This 15-minute test can be completed anytime, anywhere. Simply test yourself twice within 3 days, with at least 36 hours between tests. Detects multiple COVID-19 strains, including the Delta variant*

*Abbot conducted a computational analysis of the detection of multiple SARS-COV-2 strains, including the Delta variant, and predicts no impact to the performance of our BinaxNOW™ COVID-19 Antigen Self Test.
